

**RESOLUTION NO. 13-119**

Commissioner Bogar introduced the following Resolution and moved its adoption:

RESOLUTION RECEIVING THE ENGINEER'S REPORT AS TO THE GENERAL NATURE, PURPOSE, AND FEASIBILITY OF THE PROPOSED IMPROVEMENT AND AN ESTIMATE AS TO THE PROBABLE COST OF WORK FOR **AMENDED WATER & SEWER IMPROVEMENT DISTRICT 13-6**, AND APPROVING THE SAME.

BE IT RESOLVED BY THE BOARD OF CITY COMMISSIONERS OF THE CITY OF WILLISTON, NORTH DAKOTA:

That the Engineering Report as the general nature, purpose, and feasibility of **AMENDED WATER & SEWER IMPROVEMENT DISTRICT 13-6** and the estimate of the probable cost of such work hereby be approved and hereby ordered to be placed on file in the office of the City Auditor, where they shall remain on file subject to inspection by anyone interested herein.

The motion for the adoption of the foregoing Resolution was duly seconded by Commissioner Cymbaluk, and upon vote being taken thereon, the following Commissioners voted "AYE": Cymbaluk, Bogar, Bekkedahl, Klug and Koeser and the following voted "NAY": None. Absent and not voting: None. Whereupon said motion was declared duly passed and adopted this **23<sup>rd</sup> day of July, 2013**.

ATTEST:

  
John Kautzman, City Auditor

  
Board of City Commissioners  
E. Ward Koeser, President

**Engineering Report  
Section II**

Main Avenue Water and Sewer Improvements Sande Subdivision,  
Water and Sewer Improvement District 13-6  
July 17, 2013

The proposed project consists of installing approximately 1,410 feet of 8" PVC water line and approximately 975 feet of 8" PVC sanitary sewer line along Main Avenue, north of 43<sup>rd</sup> Street in the Sande Subdivision. In addition to water and sewer extensions, the project includes 14 water and sanitary sewer service connections to adjacent lots, 2 fire hydrants and 3 sanitary sewer manholes, along with miscellaneous appurtenances.

The estimated cost of the proposed storm sewer project is approximately \$426,876.80.

Main Avenue is currently surfaced with gravel and the proposed project will include removal and replacement of the existing aggregate surface, with additional CL 13 aggregate material.

A Special Assessment district would be created to finance construction of the proposed water and sewer improvements. This District would encompass those properties with frontage to Main Avenue. The project costs would be assessed to these properties on a front foot basis.

The assessments would be spread over a 20 year period at the current rate of interest.

Detailed Cost estimates, an Estimate of Assessment and a drawing of the proposed district are attached.

Should you have any questions or need any additional information, please contact the City Engineer's Office at any time.

Respectfully Submitted

Monte C. Meiers, RPE  
City Engineer

**Preliminary Engineering Report**  
**Section III**

B2-B3, Wegley Green Acres 4th Subdivisions  
Sanitary Sewer Improvements  
July 17, 2013

The proposed project consists of installing approximately 350 feet of 8" PVC sanitary sewer line along 1<sup>st</sup> Avenue East, south of 40<sup>th</sup> Street East in Wegley Green Acres 4th Addition Subdivision. In addition to the sewer extension, the proposed project includes 5 sanitary sewer service connections to adjacent lots, 2 manholes and miscellaneous appurtenances.

1<sup>st</sup> Avenue East is currently surfaced with gravel and the proposed project includes removal and replacement of the existing surface material type.

Due to the topography of this area, the gravity sanitary sewer can only be extended to Lot 3, Block 3 and Lot 7, Block 2 of the subdivision at this time.

The estimated cost of the proposed project is approximately \$73,450.

A Special Assessment District would be created to finance construction of the proposed sanitary sewer improvements. This District would encompass those properties with frontage to 1<sup>st</sup> Avenue East. The project would be assessed to these properties on a Front Foot Basis over a 20 year period at the current rate of interest.

Detailed Cost Estimates, an Estimate of Assessment and a drawing of the proposed district are attached.

Should you have any questions or need any additional information, please contact the City Engineer's Office at any time.

Respectfully Submitted,

Monte C. Meiers, P.E  
City Engineer
